

Information Document

Incidental ISO Rule Amendments

ID #2018-001R

Information Documents are not authoritative. Information Documents are for information purposes only and are intended to provide guidance. In the event of any discrepancy between an Information Document and any Authoritative Document(s)¹ in effect, the Authoritative Document(s) governs.

1 Purpose

This Information Document relates to the following Authoritative Documents:

- Section 203.1 of the ISO rules, *Offers and Bids for Energy* (“Section 203.1”); and
- Section 304.9 of the ISO rules, *Wind and Solar Aggregated Facility Forecasting* (“Section 304.9”).

The purpose of this Information Document is to provide clarification for market participants in regards to outdated ISO rule references contained in certain existing ISO rules. The below table identifies each outdated ISO rule reference and the updated ISO rule reference where the related content is located.

2 Table of Concordance

Outdated ISO rule reference	Updated ISO rule reference
Section 203.1 Subsection 3(4)(b): “... when submitted as part of a restatement under subsection 5(2) of section 203.4, <i>Energy Restatements</i> .”	The updated reference is Section 203.3, <i>Energy Restatements</i> . The reference to Section 203.4 was intended to read Section 203.3, <i>Energy Restatements</i> .
Section 304.9 Subsection 4(6): “The legal owner of a wind or solar aggregated generating facility must determine, at 30 minute intervals, and submit to the ISO, the gross real power capability with a precision to the nearest 2.0 MW”	“ gross real power capability ” is intended to read “ gross real power capability ”.

Revision History

Posting Date	Description of Changes
2024-04-05	Removed an outdated rule reference that was corrected by the released on the Energy Storage ISO Rule amendments.
2023-03-31	Removal of rules to align with the administrative amendment filing
2018-05-11	Initial release

¹ “Authoritative Documents” is the general name given by the AESO to categories of documents made by the AESO under the authority of the *Electric Utilities Act* and associated regulations, and that contain binding legal requirements for either market participants or the AESO, or both. AESO Authoritative Documents include: the ISO rules, the Alberta reliability standards, and the ISO tariff.
