The AESO is seeking comments from Stakeholders with regard to the following matters:

	Questions	Stakeholder Comments
1.	Please comment on the proposed agenda	AltaLink is seeking clarity on the agenda where it says the AESO and DCG presenters are providing a common understanding from 9:30-11:00, however the agenda item mentions market participants. Will DFOs also be presenting? AltaLink recommends the AESO, DGs, and DFOs should present their interpretation on the ISO's substation fraction so that all parties attending the technical session have a common base understanding of what the issues are. This will help with proposing viable solutions.
2.	Please comment on the proposed process and session overviews as indicated in the Letter of Notice	<i>AltaLink supports the AESO's proposed process and session overviews with the exception of the clarification mentioned in 1.</i>
3.	Additional comments	<i>None</i>

Thank you for your input. Please email your comments to: tariffdesign@aesoc.ca.
