Instructions:

1. Please fill out the section above as indicated.
2. Please respond to the questions below, and provide your specific comments and proposals (if any).
3. Please provide an estimate of cost and/or time savings associated with your specific comments and proposals (as applicable).

The AESO is seeking comments from Stakeholders on the development of proposed amended Section 103.3 with regard to the following matters:

	General Questions regarding the ISO Rule Development	Stakeholder Comments and/or Proposal	Cost and/or time savings estimate
1.	Do you agree or disagree that the issue and purpose identified in the letter of notice? Please comment.	<p>ENMAX seeks to better understand the issues that the AESO is looking to resolve. While we remain supportive of the AESO continuing to reduce unnecessary regulatory requirements and costs for stakeholders, given that Section 103.3 plays an important role in mitigating the risk of financial loss and maintaining the integrity of the market, this may not be the best rule for reducing red tape and could result in a number of unintended consequences.</p> <p>Any changes to Section 103.3 have the potential to materially impact all market participants and should not be made hastily.</p>	No comment at this time.
2.	Do you agree or disagree with the proposed consultation and timelines? Please comment.	No comment at this time.	
3.	Do you have any recommended amendments to the proposed amended Section 103.3?	No comment at this time.	
4.	Do you have any additional comments?	None.
