Instructions:

1. Please fill out the section above as indicated.
2. Please refer back to the Consultation Letter under the “Attachments” section to view materials related to the proposed new PRC-010-AB-2
3. Please respond to the questions below and provide your specific comments, proposed revisions, and reasons for your position underneath (if any). Blank boxes will be interpreted as favourable comments.
4. Please be advised that general comments do not give the AESO any specific issue to consider and address, and results in a general response.

| Alberta Reliability Standard | Stakeholder Comments and/or Alternative Proposal |
|---|---|
| <p>New</p> <ol style="list-style-type: none"> 1. Are there any requirements contained in proposed new PRC-010-AB-2 that are not clearly articulated? If yes, please indicate the specific section of proposed new PRC-010-AB-2, describe the concern and suggest alternative language. 2. Do you have any additional comments regarding proposed new PRC-010-AB-2? If yes, please specify. | <p><i>Comment # 1: ATCO Electric would like to confirm our understanding that the proposed UVLS schemes that may be considered / developed under the PRC-010-AB-2 standard would be separate to any Remedial Action Schemes (RAS) that are or may be in place. This understanding is based on the current RAS definition as per AESO Glossary</i></p> |
