

Cancellation for the Duchess Solar Project Connection

The ENGIE Development Canada LP (ENGIE) request for transmission system access to connect its proposed Duchess Solar Project (Facility) in the Brooks area has been cancelled.

BACKGROUND

In June 2022, ENGIE began distributing an information package that included the AESO's Need Overview for the Duchess Solar Project Connection. The AESO Need Overview included the following transmission developments:

- Add one 138 kilovolt (kV) transmission line to connect the Facility to the existing 138 kV transmission line 831L in a T-tap configuration.
- Add or modify associated equipment as required for the above transmission developments.

NEXT STEPS

The above developments are no longer needed and the AESO will not submit an application to the Alberta Utilities Commission.

Information related to the Duchess Solar Project Connection is available on the AESO's website at <https://www.aeso.ca/grid/transmission-projects/duchess-solar-project-connection-2218/>

WHO IS THE AESO?

The Alberta Electric System Operator (AESO) plans and operates Alberta's electricity grid and wholesale electricity market safely, reliably and in the public interest of all Albertans. We are a not-for-profit organization with no financial interest or investment of any kind in the power industry.

We appreciate your views, both on the need for transmission system development and proposed transmission plans. If you have any questions or comments, please contact us directly.
