Calibration Factor Calculation Outputs: Rider E Calibration Factor Q1 2010	(0.15%)	(Refund)/Charge
--	---------	-----------------

**Notes:**

1. The Rider E Calibration Factor will apply to all loss factor customers receiving service under Rates STS, DOS, EOS, and IOS as provided on the Rider E rate sheet.
2. If the Rider E Calibration Factor for Q1 remained in place during Q2, Q3, and Q4, it would collect the variance between cost of losses and revenues by the end of 2010, as currently forecasted.
3. Forecast amounts in the above table and calculation reflect the AESO's best estimates at the time of preparation. The values represent forecasts and estimates only, and final values will differ.
4. Actual amounts in the above table are subject to revision in future periods due to interim and final settlement and to other adjustments.
5. The calibration factor calculation itself is based on summing hourly costs, revenues, and loss factor customer volumes x pool price, and the same result will not be obtained by using the monthly values presented.
6. Numbers may not add due to rounding.
7. "NA" means "not applicable".
8. The revenue, cost and Rider E amounts are shown on a production month basis.
